Grading for Extraction Well Piping Treatment System
and Sewer Discharge Piping
Stormwater Management Variance
Middle River Watershed
EPS Project I.D. M200039
EPS Tracking Number: 06-20-3172

Dear Mr. Martin:

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the installation of extraction well and groundwater contamination treatment system piping for a remediation project by cut and cover. The existing cover conditions will be reestablished once the project is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no significant increase in impervious area or runoff as a result of this project.

Please contact Andrew Fish, P.E. at 410-887-3768 should you have any questions.

Very truly yours,

/signed/
